## ALIMONY ASKED FROM HUSBAND BY MRS. WEEKS

Wife of Marion Physician Declares She Has Been Forced To Leave Him

CHARGES GROSS NEGLECT

Also Points to Unsavory Notoriety and Accusations of Misconduct

Mrs Gertrude D Weeks through her attorney Former Judge Grant E Mouser Jr yesterday filed a petition in Common Pleas Court against her husband Dr Dana O Weeks asking alimony. Mrs Weeks does not ask for divorce.

Mrs Weeks asserts that by reason of the unsavory notoriety and charges of misconduct of a grave nature against her husband which she refuses to believe until proven and because of the grossly neglectful manner in which he has treated her having no love for her she has been compelled to separate herself from him and asks suitable alimony.

The filing of the petition follows recent paternity charges brought against Dr Weeks by Miss Corra [illegible] trained nurse of Blue Hill Me. Dr Weeks waived examination on the charges and was bound over by Magistrate Joseph M Ju[illegible] to Common Pleas Court under a bond of [illegible]

Charges Neglect

The marriage of Dr and Mrs Weeks took place in Kenton O April 21 [illegible] the petition sets up.

Mrs Weeks asserts that her husband has disregarded the sacred vows and obligations and has wounded her feelings and destroyed her peace by his unjustifiable and unconscionable conduct.

She alleges that Dr Weeks has been guilty of gross neglect and ill treatment toward her to the point that she can no longer live with him and retain her honor and respect.

Dr Weeks is the owner of real estate valued at [illegible] and encumbered by mortgages amounting to $6,100 and has personal property estimated at $10,000 the petition states.

Mrs Weeks is now living at the home of her son Douglas who is connected with a hospital at [illegible] during the summer months.

## FRANC DROPS ANOTHER 40 POINTS WITHIN HOUR

Herriot Government Will Recommend Moratorium To Avoid Financial Panic

Paris July 20—The Herriot government will recommend a moratorium to avoid a French financial panic as the result of the tumble of the French franc according to Minister of the Interior Chautemps.

The franc opened weakly dropped 40 points within an hour this morning going to 47.90 to the dollar.

At 2:30 this afternoon amidst exciting scenes on the bourse the franc reached a new low record when it sold at 49.43 on the dollar. This low made the franc worth 2.02 cents.

Normally the franc is worth 19.30 cents but it has declined steadily since the early war days.

Forced consolidation of all treasury bonds and a moratorium will be the basis of the financial platform of the Herriot ministry M Chautemps told a meeting of the radical socialists today. The finance minister M De Monzie will be given broader powers and will avoid inflation M Chautemps promised.

The situation which is reflected in the weakness of the franc today would indicate that public confidence in the new ministry is lacking and unless M Herriot can stage some spectacular maneuver to remedy the financial situation immediately it seems likely that the fourteenth cabinet since 1914 will have to make way for the fifteenth within a few days.

## SUPPORTS MELLON'S DEBT STATEMENT

Acting Secretary of British Treasury Replies to Criticism of Churchill

Washington July 20 — Replying to criticism in the house of commons by Winston Churchill British chancellor of the exchequer Acting Secretary of Treasury Winston today made public detailed figures to support Secretary of the Treasury Mellon's Saturday statement that much of the money which Great Britain borrowed from the United States during the war was used to meet commercial obligations in this country and not for distinct war purposes.

Churchill said Mellon had misapprehended the facts. If there was any misapprehension, Churchill, not Mellon, was in error, replied Winston.

## Turn Whetstone River Into New Bed to Save Stone Quarry on King Farm

THE Whetstone River today is flowing in a new channel over the lands of Wesley M King [illegible] commissioner.

The stream was forced into the new channel today following the completion of a dam in the old bed about 100 feet from the stone quarry of [illegible] of this city.

A week ago while blasting at the stone quarry workmen accidentally struck a [illegible] stream. Within a short time water was seeping into the quarry. Shovels trucks and all other machinery in use at the quarry were soon submerged under 15 feet of water.

Futile attempts were made to pump the water out. The old pump failed to perform the work so a new one was brought into use.

All attempts failed. The water continued to flow into the quarry as rapidly as it was pumped out.

Finally it was proposed to dam the river near the quarry and then use the pumps.

Work on the dam began Saturday. Work continued yesterday and last night the job was completed.

A few hundred feet south of the regular channel of the river the bottom lands of King's property are situated. The river at one time flowed over the bottoms but had gradually eaten its way into the channel near the quarry.

With the dam completed the way into the channel over the bottom lands was thrown open.

The channel in which the dam was built is 300 feet in length.

Today pumpers again began work and the water in the quarry was forced into the Whetstone river once more.

## ANTI-AMERICAN FEELING SENDS TOURISTS HOME

Resentment and Insults Follow Editorials in French Newspapers

Paris July 20—A wave of anti-American feeling is sweeping France today.

American tourists were brazenly insulted last night while dining in an open air restaurant in Montmartre. A scuffle ensued in which the police intervened arresting several Frenchmen.

Resentment against the Americans or Yanqui is particularly rife among the working classes who are fed at every opportunity by street orators and newspaper editorials that the United States is responsible for all their ills and entails the waning purchasing power of the franc.

Throughout the Latin quarter American tourists have been having trouble with quarrelsome and argumentative natives. Most of these run ins while not serious do much to mar the pleasure of the visit to Paris.

Agents for the large steamship companies reported that the July bookings on the America-bound steamers were unusually heavy in some cases record breaking. The homeward rush usually does not start until August. The premature rush was attributed in part to the anti American feeling in France today.

Aggravating the situation is the declining value of the franc. Frenchmen have lost confidence in their own currency and are beseeching their American friends to sell them dollars. Store keepers invariably suggest to their customers that they prefer payments in dollar or pounds at the rate of exchange current.

At least one of the injured is expected to die. He is Paul Davis Muskogee County deputy sheriff who with Wes Carmack is said to have staged the attack.

Davis was shot through the chest.

After shooting up three small hotels the drink-crazed officers staged a gun battle with several patrolmen and plain clothes men before they were overpowered.

## PAUL HITCHCOCK GETS $500 FINE FROM MAYOR

Pleads Guilty to Possession of Liquor; Remanded to County Jail

Paul Hitchcock 30 of 740 Davids st arrested Saturday night on Green Camp pk following a wild ride through the streets of the city was fined $500 and costs when arraigned before Mayor Earl Hazen yesterday.

Hitchcock was charged with the transportation of liquor. He pleaded guilty to the charge and upon failure to pay his fine was remanded to the county jail.

Hitchcock who owns a Reo speed wagon truck drove through W Center st Saturday night at an alleged reckless rate of speed.

He was followed by Officer Ira Shrock who jumped onto the truck and rode out to the Green Camp pk on the running board in a vain attempt to stop the driver.

It took bullets to stop Hitchcock in his flight the officer said. One bullet hit the front tire of the truck and Officer Shrock with the assistance of Chief Thompson who had also followed from headquarters brought Hitchcock back to the city.

Hitchcock's companion is said to have jumped from the truck before it was stopped and succeeded in making his escape.

## Canton Official Hints At Startling Developments In Probe of Editor's Slaying

Prosecutor Declares Investigators Are Working on Real "Live Wire Angles" as Search for Slayers Enters Fourth Day; Suspect To Be Requestioned; Wrecked Auto Found

Canton July 20—County Prosecutor C B McClintock today told the International News Service that the investigators are now working on real live wire angles and that if their plans worked out startling developments would be unveiled in the slaying of Don R Mellett crusading Canton publisher in the near future.

"At one meeting this morning we were impressed by several new angles that have come to the surface within the past 24 hours and we are earnestly endeavoring to uncover them," he declared.

McClintock seemed impressed with the new leads but would not divulge their nature. It was reported that the investigators feel that they now have something definite on which to work and despite their lack of sleep they were throwing every ounce of their spirit energy into the case.

The fact that Chief of Police S A Lengel after quizzing James Jumbo Crowley alleged godfather of Canton's underworld for two hours this morning declared that he was through questioning members of the underworld did not dampen the spirits of the county's vigilant and order State Cincinnati private detective.

Lines of many probers were turned toward Pittsburgh Warren Massillon Cleveland and their hopes in the belief that the solution of the crime might be found there.

One State may go to Warren today to check up on the story told by George Paladins alias George the Greek and on the story told by the clerk of the [illegible] Hotel there to Floyd Connor of the Pittsburgh homicide squad on his visit there last night.

The clerk is said to have admitted that he registered for Paladins on last Friday morning or rather about midnight. Garage attendants were said to have told Connor that Paladins automobile was not placed in a Warren garage until about 1 o'clock Friday morning.

It was not learned according to an announcement early today, whether the clerk had registered while Paladins was present or if he had been previously told to place the Pittsburgh man's name on the register. If the habeas corpus action started in Pittsburgh by Paladins attorneys proves successful County Prosecutor C B McClintock will start extradition to have him held until State can check up on the Warren

## AMENDMENT OF FEDERAL RESERVE ACT IS URGED

A E Duncan Addresses State Bank Supervisors at Columbus

Columbus July 20—Belief that the federal reserve act should be amended so as to make eligible for rediscount loans to finance companies handling self liquidating receivables of merchandise sales, was voiced here today by A E Duncan, Baltimore, addressing the twenty-fifth annual convention of the National Association of State Bank Supervisors.

Duncan said such a modification of the act would enable these companies to borrow cheaper, reduce their rates and thereby lessen the burden upon commerce.

Election of officers, adoption of resolutions and selection of next year's meeting place are scheduled to take place late today. Speakers today urged that next year's convention be held at Richmond, Va; Asheville, N. C, or Salt Lake City, Utah.

A resolution adopted today endorsed the proposal that employers arrange for at least a 60-day vacation next year for each of their employes who are World War veterans and who desire to attend the convention of the American Legion to be held in Paris next September commemorating the tenth anniversary of America's entrance into the World War.

## CITY SWELTERS WHILE MERCURY SOARS HIGHER

Expect 94-Degree Mark of Yesterday To Be Reached Again Today

EIGHT DEATHS IN OHIO

Torrid Invasion's Toll Throughout Nation Now Placed at 33

At 2 o'clock this afternoon the official government thermometer in Marion revealed a temperature of 94 degrees. At noon the mercury stood at 90 degrees. Yesterday's temperature at 2 o'clock was 90 degrees.

• • •

A break in Ohio's heat wave is promised for Wednesday official state weather observers declared today.

Showers and possibly thundershowers Wednesday afternoon will be followed by cooler temperatures which will continue Wednesday night and Thursday, according to the report.

The peak of the hottest weather of the year that yesterday shot the mercury to the giddy height of 106 degrees in the Dakotas was expected to pass over Ohio today.

The advance heat waves of the torrid invasion yesterday took a toll of six lives and many heat prostrations in Ohio as the state broiled under temperature that averaged 95 degrees. No prostrations or deaths were recorded up until noon today in spite of the heat in this city.

94 In Marion

Mercury reached 94 degrees for a high point in Marion yesterday afternoon. Temperature ranged around 90 degrees during most of the day. During the night the mercury fell to 71 degrees but returned to 90 degrees before noon today.

Large crowds were resorting to Crystal Lake all day yesterday and today in an effort to dodge the scorching hot sun and sweltering heat. Highways leading to the lake were choked with cars from early morning to late last night.

Soda fountain business was exceptionally heavy over the entire city. A continual stream of tired business men and numerous women shoppers was lined at the fountains.

Ice Sale Mounts

The sale of ice in the city was increased about one third more than usual.

## TREMENDOUS GROWTH OF OHIO TOLD BY DONAHEY

Governor and Wife in Philadelphia for Dedication of State Building

Philadelphia July 20—Governor and Mrs A V Donahey of Ohio and a number of other prominent Ohioans arrived here today for ceremonies marking the dedication of the Ohio building at the sesqui-centennial exposition grounds.

While the main portion of the program will take place today Governor Donahey will remain at the exposition for two days. A special suite has been arranged for him in the Ohio Building.

Governor Donahey addressed a gathering in the Ohio Building this afternoon. He paid tribute to the signers of the declaration of independence and the writers of the constitution. He briefly outlined the history of Ohio and paid tribute to the seven native sons who have risen to the presidency of the nation.

"From a mere handful of people at the time of its admission to the union, Ohio has grown to a state of over six and a quarter million. Unlimited wealth in natural resources, great industries, its part in commerce a pride of its citizenry, with great educational advantages, it ranks well to the fore.

"In dedicating this building and devoting it to its intended use, let us rededicate ourselves anew to the spirit and the principles which have dominated our history and have made possible the achievements of our state and nation—our divine heritage."

# Up and Down Goes Mercury as Perspiring Reporter Seeks Correct Temperature

BY MARION CHENOWETH

IT was hot yesterday there [illegible] was some place between [illegible] 10 degrees [illegible] the uptown thermometers.

After [illegible] accurately on the [illegible] to give the [illegible] other [illegible] how warm it really [illegible]

Well [illegible] with only [illegible] between two of the thermometers.

It [illegible] stroke or heat prostration just to look at some of the instruments. All the others were capable of making a cool chill run down one's back.

I made a survey of the local thermometers at exactly 2 o'clock yesterday afternoon and took in everything within the uptown district—only to find that my efforts were of no avail. I came as close to telling how hot it really was as I did to determining my weight on our uptown scales.

### Starts on Journey

It was really warm before I began to look for the mercury in the instruments but after I had [illegible] my journey over the city I was a great deal warmer. The first meter I ran across was telling the world that the temperature [illegible] Marion was [illegible] degrees [illegible] the shade at that.

The next brought the mercury down to 87 degrees as I wandered [illegible] the business district. [illegible] the next few meters [illegible] it was getting cooler—[illegible] sudden [illegible] I was [illegible] I sighted an instrument in the heart of the business district. It read 101 degrees. Nearly 11 degrees [illegible] the thermometer [illegible]

I felt myself getting warmer. I [illegible] and wiped the newly acquired sweat off my brow. I [illegible] it was time for a [illegible] and so I dragged myself into a soft drink station [illegible]

Gathering all my courage I returned to the thermometer thinking perhaps the summer's heat had gotten the best of me. But it still was the same 101 degrees. I went on.

### Up and Down

I caught sight of another temperature announcer down the street a ways from the last one. It read 96 degrees!

I pushed my way through the perspiring pedestrians on to another street trying to rid myself of such contradictory registers. I looked at the first thermometer I saw which said 94 degrees, two lower than the last. I journeyed to the next and wiped the dust off to read the figures 90 degrees and on to another 87 degrees. It was getting terrible.

And then I got to a place a lot of people was looking for yesterday but couldn't find. It was a nice cool and shady spot and had a thermometer tacked on the wall of the building which notified me that it was 80 degrees above zero. It was getting cooler. I began to realize and was about decided to stop at the next ice cream parlor for a hot chocolate. I buttoned up my collar and wished for my coat.

But the cool atmosphere which seemed to come all of a sudden vanished about as soon and the temperature bounded back up to 90 degrees at the next thermometer.

### Three the Same!

And then miracle of all miracles. I found three of the instruments which had the same height of mercury! They stood at 90 degrees!

As I went doggedly on the temperature seemed to jump into higher altitudes again, taking strides from 91 to 94 and to 98 degrees and back to 101 degrees again. Downhearted and about to give up the battle I looked at one last instrument. It was 102 degrees in the shade, the highest of the lot.

I was in anguish. How warm was it?

Despairingly I sought the government temperature instrument which is kept by Dr. T. H. Raffensperger, S. Prospect st. It said 90 degrees. I let it go at that, jubilant that maybe it wasn't as cold or as hot as most of the thermometers indicated.

# Marion "Heavyweights"—200 Pounds and More, and Still They Remain Cool

MEN of Marion 200 pounds [illegible] are weathering the [illegible] heat as well as [illegible] say.

It is generally [illegible] man who is blessed with [illegible] surplus weight [illegible] to spend [illegible] time of keeping cool [illegible] than the man [illegible] age size or even smaller.

Well, it [illegible] the heavyweights [illegible] even though the [illegible] than the ordinary [illegible] from suffering from the [illegible] heat.

One man has gone so far as to [illegible]

[illegible]

**Depends on Breezes**

[illegible] a great deal on breezes [illegible] the [illegible] of the largest men of Marion [illegible] the city and yet they [illegible]

Wesley Page, 18 years old, 308 S. [illegible] weighs 2?5 pounds. He [illegible] blacksmith at [illegible] Steam Shovel Co. and [illegible] the hottest place in the [illegible] "I work where the temperature is about the same all the year round. I work where the temperature is about the same all [illegible] The heat is not [illegible] you get used to it. [illegible] for cool [illegible]"

It can be agreed that the heat [illegible] Mr. Page owing to [illegible] fact that he has gained 1? pounds since last January.

Harry Ackerman, owner of Ackerman Bakery, gets more heat in his [illegible] than most people. He [illegible] baking for the shop and consequently is around where the thermometer is high near all the time. He is 250 pounds.

**Perspiring Reason**

His [illegible] is the same as the rest [illegible] that he is used to it. He says "Of course we perspire and freely at times, which is the reason we take the heat so well."

A traveling salesman has a hard life [illegible] generally gets his share of [illegible] says [illegible] but Harry Beard [illegible] doesn't mind it—at least he says not. At present he weighs 2?0, five pounds [illegible] than he tipped the scale last winter.

[illegible] asked why he didn't mind [illegible] Beard said "I drink beer [illegible] and use cordial for lubrication which usually puts me in fine condition."

[illegible] Wilson, 2? [illegible] 877 S. Prospect [illegible] who levels the scales at [illegible] likes the summer and was so used to it that last week he [illegible] taken off [illegible] and caught [illegible] during a cold spell. He says "Give me summer any time."

**He Likes Heat**

"I get along in the summer as well as I do in the winter. I like heat," declared Elmer J. Smith, [illegible] of 57 Miami st., popular baseball and basketball fan. Smith weighs 237 pounds and is employed at Marion Steam Shovel Co.

It can be acknowledged from established facts that only a very few of the persons overcome from the heat and victims of sun stroke are large persons.

One person was heard to say, "I sometime think the fat man is cool while other people are hot because it seems like it should take longer for the heat to get through him."

# MA MAY RESIGN IF MOODY GETS LEAD IN RACE

## Lieutenant Governor Miller May Be Head of State Until Jan 1

Fort Worth, July 20—Lieut. Gov. Barry Miller of Dallas may be governor of Texas on July 25. Should Mrs. Ma Ferguson, present incumbent, be defeated by Dan Moody, attorney general, her leading political opponent, in the primary July 24 and keep her promise to resign if the results show him leading her in number of ballots cast, Miller will succeed to the executive position and hold it until January 1927, when the newly elected governor would be inaugurated.

Miller was elected to his present post two years ago, going into office with Mrs. Ferguson. He now is making a campaign for renomination to the office of lieutenant governor.

**May Soon Resign**

Rumors have been current in Texas for some time that Mrs. Ferguson will get out of the race before the primaries. James E. Ferguson, her husband and former governor, who is campaigning in her behalf, has been ill for some time. It is said, and the rumors have it that on account of his health she may decide to withdraw at any time.

This rumor was offset, however, in part at least, by an announcement a week ago by Ferguson that he expected Mrs. Ferguson to win by a large majority in the primary and that she would not quit the race. Ferguson admitted, however, in his statement that Lynch Davidson of Houston, third of the leading candidates, has made great inroads into Moody votes, and it is pointed out by political observers that if this be the case, then surely the Fergusons also have lost supporters.

**Davidson Gains**

Davidson, who at the outset of the race was not believed by dopesters to have much chance at the governorship, has undoubtedly made great strides during the past six weeks. He has gained many supporters both from the Ferguson and Moody camps and many observers are of the opinion that if either Mrs. Ferguson or Moody is eliminated in the primary he will have an excellent chance at being elected in the "run off."

Nomination in the democratic "run off" is considered equivalent to election in Texas.

# RUSSIANS DISLIKE JAZZ, SAYS MUSICIAN

## Claims Persons Will Never Appreciate American and British Music

London, July 20—The Russian people have no use for jazz and are never likely to take to it, according to Albert Coates, leader of the famous London Symphony Orchestra, who has returned to London after conducting operas in Leningrad and Moscow.

"Jazz will never have the hold in Russia that it has in Europe and the United States," declared Coates, "because the Russians have a marvelous rhythmic sense of their own.

"The terrible suffering that all people in Russia have gone through has so deepened and broadened their artistry that those who can remember their wonderful performances prior to the world war would be absolutely surprised to hear and see how much greater they have become.

"The ex-Imperial opera houses have the finest repertoires in the world and are presenting some fine programs. Shakespeare, Shaw and Somerset Maugham are being played at the theaters and there are plenty of cinemas, which do not do a great volume of business, however."

Lots of things he doesn't want come to the man who is impatient.

# QUEEN'S TRESSES REMAIN UNSHORN ON KING'S ORDER

Queen Marie of Rumania has not bobbed her hair. But many of the women of her court as well as large numbers of the Rumanian aristocracy are urging her to do so. However, there is King Ferdinand to consider. Personally he believes that a bobbed head does not becomingly wear a crown. The unbobbed queen and her hair-forbidding king appear above.

## TWELVE DEAD IN CHICAGO

Chicago, July 20—Refreshing breezes from Lake Michigan brought a measure of relief to sweltering Chicago today. The government weather bureau promised no respite from the high tempera[illegible] that scorched the city yesterday and exacted a toll of 12 lives.

The heat wave is general from the Rocky Mountain states to the Atlantic seaboard. The middle West suffered [illegible]. Temperatures of 100 degrees [illegible] were recorded in a number of places. [illegible] reached a maximum of 94 at 4:30 yesterday afternoon, the hottest July 19 on record.

Known dead due to the heat and accompanying storms in the states over which the torrid wave has settled [illegible] at 6 o'clock today [illegible] of persons are prostrated. States reported deaths as follows:

Illinois 12, Minnesota 8, South Dakota 2, Wisconsin 2, Ohio [illegible], Iowa 1, New England states 0.

Three of Chicago's dead were babies less than a year old. Other deaths from prostration are expected to follow. Thousands sought relief at the beaches, many remaining through the night.

[illegible] S. D., was the hottest place in the country yesterday with an official temperature of 108 degrees. [illegible] S. D., registered 106.

Other cities recording temperatures well over the century mark were [illegible], North Platte and Sioux City.

## MERCURY CLIMBS TO 93 DEGREES

Columbus, July 20—Climbing steadily, the mercury in the official government thermometer passed the 93 mark [illegible] here today.

But that was 13 floors above the street.

Down on the sidewalks pedestrians sweltered, dodging in shadows as they went their way. In the kiosk of the statehouse yard the thermometer registered 105 in the shade. Others [illegible] streets hovered near the same mark.

Despite the intense heat, which was alleviated slightly by breezes from the west, no prostrations had been reported by hospitals or police at noon.

* * *

## MERCURY GOES TO 98 DEGREES

Steubenville, July 20 — Another scorching day was being recorded here today following yesterday's hot weather when the temperature reached 98 degrees. No prostrations have been reported.

* * *

## WELLINGTON MAN SUCCUMBS TO HEAT

Wellington, July 20—Frank W. Roe, 72, dropped dead of sunstroke while working in a hay barn on the [illegible] Hines farm near here.

He was survived by two daughters and two sons, one of them Charles Roe of Cleveland.

## CANTON MURDER

STARTS ON PAGE 1

[illegible] McClintock said today.

Possibility that another person other than the foreign speaking man who warned Don Mellett on the Sunday before the crime that death was approaching might have had some knowledge of the murder was revealed here today when the International News Service learned that a mysterious call for the [illegible] editor was received by [illegible] Shaeffer, composing room foreman on the Canton News within 35 minutes before Mellett was brutally murdered.

The call came in about 11:30 o'clock on Thursday night, Shaeffer declared.

"A man speaking perfect English asked me if Don Mellett was in. 'No,' I replied.

"'Where does he live?'

"'On [illegible] What do you want of him?' Shaeffer asked the mysterious caller.

"'I've an important message for him. Please get me his telephone number and his exact address,' the voice [illegible]."

Shaeffer said that he got Mellett's address and telephone number and gave it to the caller over the telephone.

"When I asked him who was talking he slammed up the receiver," [illegible]

Although it is possible that the [illegible] mysterious telephone conversation might have been in reference to some of the battles that Mellet was waging on the underworld and the police department it is thought significant by some because it came less than an hour before the publisher met his death.

## SUSPECT TO BE GIVEN ANOTHER GRILLING

Pittsburgh, Pa., July 20—Police Lieutenant Peter Connors, investigating the murder of Don R. Mellett, Canton publisher, returned here today from the scene of the crime and announced that George Psialias, alias "George the Greek," will be put through another intense grilling at once as a result of discrepancies in his story.

Psialias, arrested in connection with the Mellett murder, steadfastly denied any connection with the shooting, although admitting he was in the vicinity of Canton when the editor was killed.

Lieutenant Connors, upon his arrival here from a trip through Ohio, where he checked the story told by Psialias, went direct to the jail where Psialias was held overnight for a private conference with him.

After a short talk with Psialias the lieutenant announced that he would again question the man, this time confronting him with facts obtained on his visit to Warren and Canton, Ohio.

Lieutenant Connors indicated that he will insist upon Psialias revealing the [illegible] of his midnight drive through Ohio [illegible] Mellett was slain. Thus far Psialias has turned a deaf ear to police questions in this respect.

The lieutenant said that while Psialias' story of his actions the night of the [illegible] was borne out in some respects by facts developed in his investigation, it has been broken down in other places.

Application for the release of Psialias on a writ of habeas corpus was filed in Common Pleas Court shortly before noon by Samuel Rosenberg, his counsel. Hearing on the application will be held tomorrow, the court clerk said.

Every effort will be made to prevent Psialias' release on a writ of habeas corpus, police said.

## SEEK TO LINK WRECKED MOTOR CAR AND MURDER

Lisbon, July 20—With the finding of a wrecked 1926 model Chevrolet sedan near Salem, Ohio, in which were dynamite, loaded revolvers, a blood-stained flashlight and a road map marked in[illegible] the route to be followed to Columbus, Sheriff George Wright here today was making an intensive search for occupants of the car in view of a possible connection with the slaying last Friday of Don R. Mellett, Canton Daily News publisher.

The auto was wrecked about 3 o'clock Monday morning but not reported to the sheriff until late Monday.

License plates had been removed and numbers on the chassis and engine had been chiseled off, presumably after the wreck, Sheriff Wright said.

One of the guns found had been fired very recently.

A bloody spot on a rear seat cover gave evidence that one of the occupants had been shot through the left lung or shoulder, according to the sheriff.

Sheriff Wright had but one clew today. Taking the engine apart, he and his deputies found a maker's number on a motor gasket. Word was rushed to Flint, Mich., in an effort to trace the car.

The auto had been traveling east on Highway No. [illegible]. Had it come from Canton it would have passed through Alliance and Salem, turning south at Salem through a little populated territory.

## CLEVELAND WARS ON VICE AFTER CANTON SLAYING

Cleveland, July 20—Declaring that the crime situation at Canton [illegible] a warning example, Safety Director [illegible] Barry today ordered a wholesale clean-up of Cleveland's underworld.

"I am going to rid the city of all undesirable characters and gunmen," Barry announced.

The safety director said that his men were making a roundup of all [illegible] characters who will be quizzed for any information regarding the shooting of Don Mellett, Canton publisher.

"I am issuing herewith an open ultimatum to the underworld lead[illegible] Cleveland to come in and tell what they know about the Mellett case or we will use coercion," Barry said.

## DONAHEY SUMMONS COLUMBUS DETECTIVE

Atlantic City, N. J., July 20. [illegible] D. Cleary, head of a Columbus detective agency, today was summoned by Governor Donahey of Ohio to join the investigation of the murder of Don Mellett, Canton newspaper publisher.

Cleary, who was here attending the convention of the International Secret Service Association, said he had received a telegram asking him to meet the governor in Philadelphia. From there he expects to start actively on the trail of the slayers.

The Florida and Georgia cases go to show that chains of banks, also, are no stronger than their weakest links.

It is proposed in New York City to place a tax of a dime a week on visitors registered at hotels within the city. New York must aspire to the distinction of being known as the Milan of America.

Far be it from intent of ours to criticize Governor Donahey for refusing to visit New York City. One who is not certain of himself does well to avoid temptation.

The first was a three-pounder and then came a six. The correspondents will take warning that the arithmetical progression demands that the president's next big catch must weigh twelve.

"Public beauty contests, chiefly, are cheap affairs," in the view of the Cincinnati Enquirer, "and usually are strongly tainted with the essence of commercialism." But why waste a perfectly good word like "chiefly?"

What is so hard for a lot of us to understand is why Judge Florence Allen should keep on campaigning for the Ohio Democratic senatorial nomination when Correspondent Herbert Mengert already has nominated Atlee Pomerene by a vote so one-sided as to make the thing practically unanimous.

A recent issue of an Iowa paper announced that, "owing to the lack of space and the work of editing this issue, several births and deaths will be postponed till next week." Old Joshua wasn't so much after all.

The Canton News remarks that "sometimes it looks as though all the good political timber had been cut, also, without thought of the future." What's the difference? So long as we have the primary it would be next to impossible to use it had we good timber at hand.

"Bebe Daniels To Wed the Fastest Human," read a headline over the story of her engagement to Charlie Paddock, the sprinter. From what he have heard of Bebe we were pretty sure that she would never tie herself up to anything slow.

The members of the foreign service building commission have decided that all furniture, save rugs, in buildings erected in foreign lands for our diplomats must be made in America and that such buildings shall be imitations of the White House. If the thing were not so sad, it would be humorous.

A stray item says it takes 50,000 tons of paper to publish New York City's telephone directory. That's a twenty-pound directory to each man, woman and child in the city. We do not pretend to know, but at this distance it looks like carelessness.

According to a statistical writer, Americans last year expended $7,500,000,000 by way of interest on the $122,000,000,000 they owe, and just as likely as not he overlooked, at that, a number of promissory notes uttered by hard-working spreaders of joy and sunshine in paragraphs to indulgent banker friends.

Let us hope that every possible safeguard will be utilized to protect the persons and property of the police chiefs when they assemble in national convention in Chicago. The most of them have been shown up badly enough as it is.

The disbursements from the Ohio workmen's compensation fund for June were $1,161,764.83 and the receipts, $848,127.20. Kept up, that would mean a decided boost in the prices of life's commodities for it goes without the saying that those who put up the compensation fund aren't in business for their health.

The resignation of the tenth Briand cabinet again illustrates the utter folly of attempting to run a country on the bloc plan, which the reactionaries, who refer to themselves as "Progressives," are trying to popularize over here.

"People refrain from church-going in the summer because it's too hot," says an exchange, "but no church was ever as hot as the golf course or the automobile." How utterly thoughtless people can be! Here's a man, evidently, who doesn't take into consideration the wide gap between personal pleasure and Christian duty.

"How can people agree on religion," asks the Youngstown Vindicator, "when they can't even agree how much smoking is too much?" Is the point of the thing the rather generally accepted view that thinks smoke before they burn?

The French might help the franc a lot by throwing out of office the Radicals and other elements which have conspired and worked against all efforts toward its stabilization, and the demonstration against Mr. Herriott Saturday evening, rather goes to show that they are about worked up to the stage where they may decide to do something along that line.

## For the City's Best Interests.

We were somewhat surprised to read in our news columns, a few days since, statements by members of the city council indicating that the councilmanic conception of the budget system was to ask for far more funds than were deemed necessary in order that the budget commission, in reviewing the budget, might not scale it down below the figures necessary to meet the needs of the city. If councilmen did not mean this, they were unfortunate alike in their choice of words and their choice of illustrations.

While such may be the councilmanic conception of the budget law, it is far from that of those who framed it. The law was passed by the general assembly to cut down useless expenditures; to reduce the amount of money which would come into the possession of political divisions only to be wasted in extravagance. The general assembly's idea was that the various budgets should represent the amounts of money absolutely necessary to meet the needs of the various political divisions. The general assembly contemplated real budgets, not child's play.

The statements to which we have referred were made in an endeavor to explain why council is asking for $127,000 more with which to run the city in 1927 than it received for the present year. As explanations, they did not explain. Statements made at that time and since might be taken to explain where something like $25,000 was to be used advantageously; they made evident that council did not expect the budget to go through without material cutting; they made plain that, should it go through without any cutting whatever, council would be glad to spend the money, but they left the details of the proposed expenditure of the remaining $102,000 shrouded in mystery.

As a city we have just emerged, through the aid of an occupational tax and gifts by corporations and private citizens, from a very precarious financial situation. We would not have the experience repeated. Still there should be no slop to the other extreme. We should hesitate about taking a step which would have a tendency to result in reckless expenditure. If the budget carrying an additional $127,000 should receive the approval of the budget commission and result in an increased tax rate, we would probably find history repeating itself and find about the same tax rate in force after the new appraisement, which has been set back until after the fall election—which, no doubt, is very good politics.

It is the exceptional case where new appraisements reduce valuations for tax-levying purposes. The general result of the new appraisement will be to increase valuations in this city, regardless of what the result may be in rural districts. From an economic viewpoint, it doesn't look like good business to boost tax rates in the face of coming increases of valuations. Our tax rate, as it already is, is too high for the good of Marion. Cities the size of Marion do not thrive under high rates. More often, the contrary is true. We take pride in referring to Marion as a city of home-owners. We will not be able to claim such a distinction if taxes go much, if any, higher. Put this down as a fact: people capable of figuring will not build, save in exceptional cases, when it is cheaper to rent, and Marion has come dangerously close to, if she has not already reached, that situation. This is why we have spoken so frequently on the subject of municipal economy. We want our city to have all the funds necessary, but we do not wish to see our tax rate mount until, upon increased valuations, it will work against home-building and home-owning. That will mean municipal retrogression.

Let us hope that the present budget matter will be handled in the best interests of the citizens generally, regardless of any and all imbued with any abnormal desire toward extravagance in the spending of public funds. Let us hope that our tax rate, under the new appraisement, will be kept down to a point where it does not become an added burden. Let us hope that the budget commission will faithfully execute the purpose of the budget law, which the council has shirked. In that event, all should prove serene.

But in case Marion's interests are not conserved; in case the city's money is not expended wisely and well, the tax-payers—and that means all in the city, regardless of sex or age, who pay for their lodging and what they eat, drink and wear and their pleasures and their recreations—are not without remedy. They can go to the polls—at least, they who enjoy the right of suffrage can do so—and vote each and every city official a party to such extravagance and such lack of interest in Marion's welfare out of office, and elect thereto men who will serve her well. And this is precisely what, in the event that the city's best interests are betrayed, we hope the voters will do. This newspaper may be regarded as definitely committed to the policy of championing a fair, honest and intelligent budget and the retiring of any and all officials placing obstacles in the way thereof.

### AN ANCIENT AND ROYAL [illegible]

Ah, the snail is on the thorn,
The bird is on the bou'—
It's a braw and blithesome day to be alive m'!
May the beastie travel on
And the birdie chant anew—
So long as they'll be still the while I'm drivin'!

The huntsman winds his horn,
The dogs bound o'er the lea;
Each sound and sight a bit o' beauty bringin'
To deck the summer morn—
'Tis paradise to me—
Gin they'll only hold their whist the while I'm swingin'!

My love undoes the latch,
Puts out her bonnie head,
Her tender song the risin' mist wreaths cuttin';
She's fair and rich—a match!
But I'd sooner she were dead
Than that she should interrupt me when I'm puttin'!

Ah, lovely is the day,
And lovelier my lass;
To both my bonnet in respect I'm doffin'
But both may fade away
To let the well ball pass;
I'll brook no interference with my golfin'!

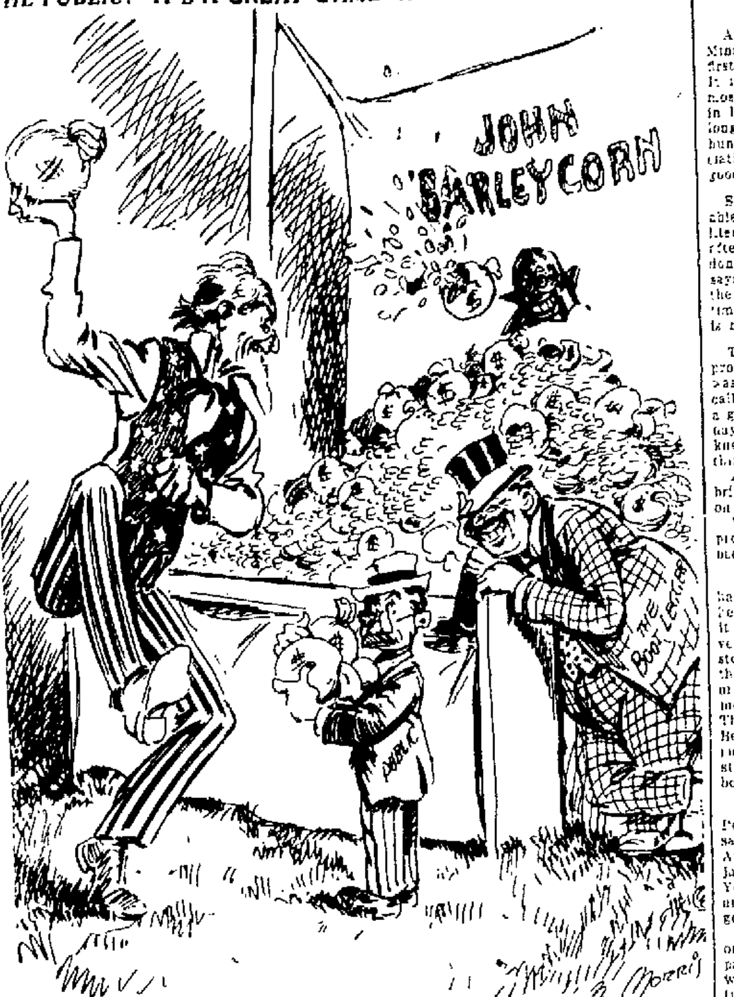
THE PUBLIC: "IT'S A GREAT GAME IF WE DON'T WEAKEN."



## Harvest of Death Averted.

BY ROYAL S. COPELAND, M. D.

United States Senator from New York.
Former Commissioner of Health, New York City.

According to a recent announcement made by the United States public health service, one out of every 150 mothers die in child-birth. This means that in the United States 15,000 mothers die every year.

This report stated, too, that every year nearly a quarter of a million babies die in the United States who have not reached one year of age. Of these, 100,000 die during the first month of life.

These are terrible figures. Such a harvest of death is unnecessary. When we become really civilized and give every prospective mother the instruction she is entitled to receive, these figures will be changed.

The public health service emphasizes the need of an educational campaign for women. The service wants literature distributed and instruction given in every possible way.

It is an unfortunate thing that many a prospective mother never consults a physician until a few minutes before the birth of the baby. This is all wrong. She needs advice from the moment she knows her condition.

Many a case of kidney disease which could be successfully dealt with by early discovery, is entirely overlooked. A bad heart, an unsuspected physical deformity, and other hazardous factors are undiscovered because of the failure to get competent medical advice.

It is all nonsense talking about the good old times. There were no good old times so far as mothers were concerned. Go into any old-time graveyard and study the tombstones. You will be shocked at the number of deaths occurring in infancy and the number of young mothers who were buried beside their infants.

If there is one thing in which we have made progress, it is in protecting the lives of infants and the lives of their mothers, but we haven't gone far enough. We must not permit one out of every 150 mothers to die in child-birth.

The great trouble with young mothers is that they hesitate to talk about the matters we are discussing. They are unwilling to confide in the family physician. This is a mistake. Frankness and good sense at this time will mean the saving of a baby's life and perhaps the saving of a mother, too.

The first thing a young couple should do after choosing a place of residence is to find out where is the nearest good doctor. If you are in doubt about this, ask the health officer of the town to tell you. Go to the priest or rabbi or minister and let him advise where there is an upstanding, fine physician. Don't be in a hurry to make the selection, but when you have decided what doctor you want, let the young couple call upon the physician and make his acquaintance. Tell the doctor you are more anxious to stay well than to get well. Don't be afraid to pay him a fee now and then, even though you don't seem in particular need of medical attention.

The advice I have given you is good advice no matter what happens, but if there is a prospect of an addition to the family, the young couple is neglecting a manifest duty if medical advice is not taken in the very beginning. It is this sort of thing the Public Health Service has in mind in its campaign for defeating disease and death.

### ANSWERS TO HEALTH QUERIES

L. H. D. Q—How can I reduce?

2—How much should a girl weigh who is sixteen years old and five feet three inches tall?

A—Weight reduction is merely a matter of self-control as regards the diet. Exercise is essential. For full particulars send a self-addressed, stamped envelope and repeat your question.

2—For her age and height she should weight about 117 pounds.

## The Way of the World.

BY GROVE PATTERSON.

A chess game, played on a sick bed, kept a Minnesota man alive two years and a half. At first thought that seems curious and unusual. It isn't. Given just reasonably good health, most of us are kept alive by an active interest in life. The more active our interest, the longer we live. If you want to live to be a hundred, keep on loving life, keep on associating with younger people, keep on having a good time.

Samuel Pepys, who kept the most remarkable diary ever published in the history of literature, covered the years shortly before and after 1650. He lived through the great London plague and wrote about it. For spite, he says, the sick sometimes blew their breath in the faces of the well. Remember that, sometimes, when you are wont to think the world is not getting better.

To find other evidence that the world improves we may well read Pepys further. He was secretary to the admiralty. He has been called the father of the British navy. He did a great deal for it. He was a big man in his day—went to lunch with dukes and princes, knew the king personally and all that sort of thing.

And yet Pepys thought so little of taking bribes and doing other things society frowns on today that he tells about it in his diary.

While our behavior since Pepys' day has improved a little, the level of our idealism has been raised a great deal.

If you were asked what relation motor cars had to graveyards you might say motor cars help keep graveyards occupied. You would say it jokingly. Seriously, automobiles have a very definite relation to cemeteries. The tombstone business has been seriously hit. Money that used to go for ornate markers goes for ornate autos. Many families can't have granite monuments and expensive motor cars too. They choose the cars. In that they are wise. Better buy an automobile and take the family riding than save the money and buy a tombstone that will never bring a smile to anybody's face.

Bishop Manning, of New York, is hopeful. Perhaps he is optimistic chiefly because he is sailing away for a month's vacation. Leaving America, he announced to reporters that the jazz wave was receding. The tide is ebbing. Young folks are coming to their senses. They are really all right says the bishop, and they're going to quit their fooling.

It is doubtful if the bishop is high authority on these matters. He knows little about parks, "Pebbleford," petters and pictures. The writer sees no recession of the jazz wave. The tide is in. But he agrees with the bishop that the young folks are well up in brains and morals to the young folks of the gay nineties—plus tremendous opportunities for self-expression.

What would you have done if you had had the opportunities for pleasure that youngsters have now?

If you want to get one hundred cents worth of satisfaction for your dollar, try sending a boy to a boys' camp. There are plenty of opportunities right in this town.

## Twenty Years Ago.

This day was Friday.

Mayor L. A. Hathaway, of Agosta, utilized the phone in a novel way. Calling up a man residing near the village, he read to him a charge of intoxication and ordered him to appear the next morning for his hearing. The man said he was too busy to come to town, but pleaded guilty. The mayor fined him five dollars and $3.60 costs, which the man sent in the next morning.

George Hinamon retired from the poultry firm of Hinamon and Sweeney.

J. D. Lust, residing seven miles north of Marion, threshed the wheat off a twenty-acre field, the crop averaging forty-three bushels to the acre.

Zama Gillett was installed as noble grand of the Waldo Rebekah lodge.

Word was received here of the accidental death of Guy Beynton, sixty-seven, a former Marionite, near New Castle, Wyoming. He was the fourth member of the Shunk-Beynton family to meet a violent death within six weeks, two have been murdered and another member having committed suicide.

Mrs. C. D. Kling entertained a large company of friends at her home on east Church street.

Homer C. Johnston, of Chicago, was the guest of his mother, Mrs. J. C. Johnston.

George W. Bell, a prominent stock-buyer, died at his home at Cardington.

The office of the Ohio Milling and Grain company was burglarized, but only $10 in cash was stolen.

W. T. Smith was installed as chancellor commander of Marion Lodge, No. 402, Knights of Pythias.

## Facts and Figures.

Locusts travel 200 miles in a day and a night.

An average of one shipwreck a day is the toll of the sea each year.

During 1925 there were 115,473 street accidents in Great Britain, and some 3,971 of these were fatal.

By a recent government decree, eight per cent. of rye becomes a compulsory ingredient in flour for bread making in France.

The 600 songs of Schubert were written—sometimes ten in a day—in the fourteen years between the time he was seventeen and his tragic death at thirty-one.

Last year the carcases of 800 bullocks and 1,216,500 sheep and lambs and 1,000,000 pigs were handled at the great Smithfield markets in London.

In 1924, according to figures just made public, 1,218 persons were killed in the mines of Great Britain, and 197,111 disabled for more than three days.

**Be right. Here is a great information service that is free to every one. Write your question plainly and enclose two cents in stamps for return postage. Address the Marion Star Information Bureau, Frederic J. Haskin, Director, Washington, D. C.**

Q. How much does ice-cream weigh? R. W.

A. The bureau of standards says that the weight of a unit volume of ice-cream depends upon the character of the ingredients and the proportion of air incorporated in the product. Fruit and nut ice-cream, also chocolate ice-cream, will run heavier than vanilla ice-cream. Different ice-creams may range from 4½ pounds to 5¾ pounds per gallon.

* * *

Q. Are there any snakes in Scotland? L. R. G.

A. Like Ireland, Scotland is singularly free from snakes, while only two species are known in England.

* * *

Q. How hot is Italy in the summer time? V. G. E.

A. The mean summer temperature at no station in Italy exceeds eighty degrees F., while nowhere except in the elevated valleys of Piedmont is the mean summer temperature lower than seventy degrees.

* * *

Q. In what manner was the rudder of a Spanish galleon suspended? N. H.

A. Paul E. Garber of the Smithsonian institution says that the rudder swung on pintles fastened to the rudder by iron straps, but free to turn in the bend of similar straps on the hull. The rudder straps were above the hull straps, and the pintles were recessed into the rudder, flush with the hinged edge. The rudder extended above the water line and was shaped into the rudder fast below the bend of the poop. The rudder post passed through the poop to the lower deck. The tiller had at its rear a rectangular mortise through which the rudder post projected.

* * *

Q. Is there a difference between blueberries and huckleberries? M. E. W.

A. There is a botanical difference between blueberries and huckleberries. The blueberry is a softer and richer berry and ordinarily grows on smaller bushes. The blueberry is blue and the huckleberry is blue-black and has larger seeds.

* * *

Q. When was Natchitoches founded? C. G. H.

A. The Louisiana Historical society says that "Martin, Gayarre and Fortier all place the founding of Natchitoches as having taken place in 1714 by St. Denis, under the command of Cadillac; a fort was built three years later; this refers to the town; the parish was presumably part of the wanderings of DeSoto in 1542. The first mention of grants in Natchitoches seem to have been in 1718 to the Brossart brothers whose settlement flourished."

* * *

Q. Does the word, Zend, in connection with the Avesta or sacred books of the Parsees mean the language in which the books are written? H. S. M.

A. The word, Zend, actually in the opinion of scholars means translation or commentary, but is commonly used to define the language which is akin to Sanskrit and the Afghan tongue.

## New York Day by Day.

BY O. O. M'INTYRE.

New York, July 20—Shopping is always an adventure in New York—whether you buy or not. I've returned from an exploration to corral the wonders although I didn't make a purchase. I beheld many things—from a toy monkey that climbs up a string to a $50,000 pearl necklace.

There was, for instance, a rubber night dress for mustaches which fits around the mustache, is attached to the ears and keeps the mustache in meticulous shape over night. There were sizes ranging from the Ray Long to the Niagara of Laurence D'Orsay.

For those who play "African golf" there was a tube of glycerine containing dice. Inverted, they strike prongs and roll over and over so that one may make his point. It is obvious they are made so devotees may play with strangers.

Everything appears monogrammed this year, and for a small sum one may purchase monograms in steel for hat bands, luggage, hand bags, walking sticks and even shoes. There are also gold bands for wrist watches, fashioned with links of one's monogram.

Handkerchiefs have taken on unusual novelty effects. There are for the ladies some with tiny pockets containing a miniature powder puff. And for the men are those about four times the average size and of such soft texture they may be tucked in a watch pocket.

And a powder compact, fitting into the palm of the hand, that will hold a lipstick, mirror, puff, eyebrow pencil, cigaret lighter and on the reverse side a secret pocket for a cute miniature flask to hold perfume or something or other.

Also an automatic pencil with perpetual calendar, barometer, collar buttoner, nail file and hidden scissors—retailing modestly at $47. And the inventor forgot the rubber eraser, goody! goody! For that price they ought to throw in a kiddie car.

* * *

I find unusual courtesy among sales folk. Even the clerk with the Burlington Arcade accept who showed me the $90,000 necklace looked me over and didn't roll on the floor in a gale of laughter. He told me their required only 40,000 down. I worshipped that "only." I wish I knew a good grade last for him, too.

* * *

It seems to me that despite snippishness found here and there the New York clerks are the most alert in the world. They are as quick, if the similie is pardonable, as a nanny-goat's tail. Rarely does a customer idle around before being waited upon. When a customer opens the door, clerks seem to leap at him.

* * *

And many are diplomatists. They have a finesse in calming the ruffled. I was recently sold a pair of shoes entirely too small. I said so at the time. But I was talked out of it and after a torturous evening I found next morning my feet had swollen so I could not get them on. My bath was devoted to a rehearsal of cutting things I intended to say to him. After breakfast in high rage I visited the store. He disarmed me at once with a complimentary remark and was so gracious that after a few moments I apologized for having such big feet and departed.

* * *

Down in the stores in Chinatown a sale is never forced. In the largest store there you may wander about for hours without a clerk making a single suggestion. Everything is displayed. If you want an article you buy it. It may be a good system, but one notices that business down there is seldom rushing. In Division street, not so far away, the process is entirely different. Salesmen will often follow you for a block to make a sale, and what is more they usually make it. Or pull off your coat sleeve as a souvenir.—Copyright, 1926.

## Today's Worst Story.

BY WILL ROGERS

The worst joke I heard today was told to me by Miss Taggart, of Indianapolis, Indiana. If you don't know her, why, you all know her father, Tom Taggart. All he does is run the Democrats from Ohio west. Well I met Miss Taggart in Madrid the other day. She and another lady friend were traveling all over the world. They had just made a tour of Portugal. You know, not very many have the nerve to tackle Portugal, for there is not much trouping around there. Well, I wish you could have herd the tales they had to tell.

They were in Lisbon during the last revolution. She said it reminded her of the Democratic convention. Well, of all the people that I met traveling in Europe they seemed to get the most out of it. Being a Democrat, she had to tell one on the Republicans.

A newspaperman wanted to call and get some information from a priest, who was of the Al Smith type of Democracy, and hated a Republican as bad as the devil. The reporter went in to the priest's house and said: "Father I am a reporter for the Republican. I . . ."

"Well, I am not hearing confessions now, so please don't mention any more of your sins, but go ahead with your business."—Copyright, 1926.

## Today's Events.

Tuesday, July 20.

The republic of Colombia celebrated today as its national independence day.

This is St. Margaret's day, when in various parts of Europe it is the custom for women who hope for children to attend church and make special petition for that blessing.

A three-day convention of the Associated Anesthetists of the United States and Canada was opened today in the city of Nottingham, England.

Herr Zimmerman, the League of Nations controller, sailed for America today to lecture at Columbia university and before the Institute of Politics at Williamstown, Massachusetts.

Astoria, the first American settlement west of the Rockies, will do honor to its founders at a three-day celebration which was inaugurated today.

A bronze tablet was unveiled in Philadelphia today in memory of Don Manuel Torres, first minister of the republic of Colombia to the United States and first diplomatic agent of the Spanish-American republics.

A committee of ten cotton manufacturers representing the industry in the movement to obtain better business through cooperative effort completed tentative plans for the formation of a Cotton Textile institute at a meeting in New York City.

## Who's Who and Why.

### SENATOR RICHARD P. ERNST.

Senator Richard P. Ernst, of Kentucky, is another of the Coolidge supporters who is in trouble at home. He will go before the voters in November for reelection, and his best friends admit that he will have the fight of his life to defeat Congressman Alben W. Barkley, of Paducah, who has been selected by the Democrats to oppose him.

In the first place, Kentucky is traditionally Democratic, and the Democratic count on the state is swinging back this fall to its time honored trend of giving them a "normal" 300 in an off year.

Other factors counting against Ernst are agricultural discount and the opposition of the Anti-Saloon league.

Richard Pretlow Ernest was born at Covington, Kentucky, February 28, 1858. After graduating from the University of Cincinnati in 1880 he was immediately admitted to the bar, and has since practiced law in Covington and Cincinnati. He was elected to the United States senate in 1920.

# CITY PLANNING ISSUE LACKS INTEREST, CLAIM

### Says Hot Weather Has Cooled Enthusiasm of Ohio Voters

Sustained hot weather may mean the loss of the City Planning amendment which comes before the public in the primaries August 10 George V Sheridan director of Ohio Council of Retail Merchants said today in a letter to Guy H Hulse secretary of the Retail Merchants Bureau of Marion

Many people are dodging the issue with the comment that it is too hot to consider such a thing Sheridan said Sheridan pointed out that the adoption of the constitutional amendment is a vital matter to every city town and village in Ohio

Unless a fair means of financing the work of opening and widening the main traffic thoroughfares in Ohio cities is provided everyone will suffer increasing loss and inconvenience Sheridan stated Under Ohio's present constitution only 50 per cent of the cost of taking property for road extensions can be charged against the property benefited by the improvement

This limitation puts cities of Ohio at disadvantage compared with other cities which under their state laws may charge the entire cost of these improvements against benefited property he concluded

Sheridan commented that there was little objection to the change but people would vote negative rather than take the time to consider the matter

### ds Break Down with Over Good Fortune of Miss Loder

The Girl Who Dared
By May Christie

[illegible] was John Rogers. With [illegible] he sank in [illegible] chair beside her [illegible] celebrate our reunion." He called to a waiter to bring Daiquiri cocktails. "Come on [illegible] Drink your toast al [illegible] once. And say you're glad to see me."

To his astonishment [illegible] Mary Forrest lowered her head and her tears splashed upon the marble of the [illegible] table.

"Jimmy! What have I said? What is the matter?" Rogers was [illegible]. Gentle little Mary Forrest weeping!

"You haven't lost your job, I hope. There's nothing amiss with the Wales or with Luella, is there? I wrote her twice, but I haven't had an answer yet, and I was just thinking of [illegible] a run out tomorrow afternoon."

In broken words the girl [illegible] what had happened [illegible] the tragic news.

"Flung acid on her!" Rogers [illegible] turning a greenish tint. "Luella! Good God! It can't be true!"

"They take the bandages off tomorrow morning."

"And the Andover woman. What did you say her name was? Tinker? Have they caught her yet?" He [illegible] down his Daiquiri cocktail, his shaking hand splashing some of the liquid on the floor and on his suit.

"No. She and her—husband—and the child—they can't be traced. They've got away."

There was a pause and then John Rogers muttered:

"I always knew she was a rotter. I suspected there had been [illegible] marriage. But I didn't know the child was not an Andover. I—oh, poor Luella! I can't believe any woman would be such a fiend! Insane, she must have been!" Then: "Say nothing to Luella. I'll be out for news of her tomorrow [illegible] about twelve o'clock."

As Philip Andover came into the [illegible] John Rogers rose and slipped away.

"[illegible] look pretty, don't I, Mary? [illegible] said he'd be here at twelve o'clock [illegible]. He was terribly overcome [illegible] when you told him of my—my accident." She held the mirror to her face at various angles.

"He was thoroughly upset," said Mary Forrest. "But—Luella—you [illegible] care for him?"

"[illegible] Until his wife appeared in Nassau I was—sort of keen [illegible] confess! [illegible] And think of his money, Mary. Why, he could buy up this whole estate, I do believe, and never miss the price of it!"

A hope—a pulsing hope whose throb she tried to crush immediately rose in the heart of Mary Forrest. She must not let it master her. And so she said:

"I think Philip Andover is down on the plantation. Shall I go and fetch him before Mr. Rogers comes?"

Luella pouted.

"No. He can wait. One at a time [illegible]." Then eagerly: "Look out of the window and see if you can see John Rogers yet."

"I'm Little Sister Anne," said Mary, [illegible] whose [illegible] surprised herself.

The nurse came in. Mary slipped out to the garden.

[illegible] she saw Philip Andover approaching from the direction of the tobacco fields.

She ran to give him the good news.

"Does Luella want me to go up right away?" His young face was flushed and awkward.

"She's expecting Mr. Rogers. She said—she said that one at a time was enough for her."

They both looked at each other and suddenly laughed.

### Chapter XLV
### THE DENOUEMENT

At half past eleven the following morning Mary waited in the garden of the hacienda while the doctors, in Luella's room upstairs, were taking off the bandages.

Bees hummed among the flowers. The scents of summer drifted poignant, sweet. Then a call came, sharp, staccato.

"Go in!" The nurse was beckoning to her.

Mary crossed the threshold of Luella's room, afraid what she might see.

The doctors stood beside the bed. Luella was propped up on the pillows, a hand mirror held before her face.

"Now here's your friend, dear," said the nurse.

Luella dropped the mirror and Mary—her breath catching in her throat—saw that only the girl's neck and a portion of her chin were scarred, and that her features were as delicately lovely as before!

"Oh, Mary, I can see! And I'm still quite pretty, don't you think?" she cried in a quavering but exultant voice. "With the fashionable high collars or a fur, no one need see my neck——" Her voice broke. She suddenly held out her arms to Mary Forrest. And the two girls wept together.

Half an hour later Miss Luella Loder—in a fluffy negligee of pale pink satin with an ostrich feather ruching high up to her chin—awaited the arrival of John Rogers like a little empress.

## DETROIT DENIES CHARGES OF IMMORAL CONDITIONS

Detroit, July 20—Charges made by representatives of the Rockefeller foundation that vice conditions are bad in Detroit has brought a reply from Police Commissioner Croul in which he cites the work of the vice squad of Central station in the last six months as an indication of the work the police are doing to curb vice.

The foundation report stated that 700 disorderly houses are operating in Detroit. Croul said that arrests made by the vice squad in the last six months totaled 5,995 or about 1,000 a month.

## HOW THE PILGRIM MOTHER

### Kept Her Family in Good Health

A statue to the Pilgrim Mother was recently unveiled at Plymouth Rock, Mass. Through her we honor every pioneer woman who endured privation and hardships that a nation might live. Shoulder to shoulder with her husband she built a home in the wilderness and reared her sturdy sons and daughters. She cooked and sewed. She spun and wove for her family. When they were ill she brewed remedies from roots and herbs—such roots and herbs as are now used in Lydia E. Pinkham's Vegetable Compound.

A Massachusetts woman writes: "I was all run down with no ambition. I was tired all the time. Sometimes I would be in bed two or three days at a time, and the doctor would have to give me something to quiet me. A friend told me about Lydia E. Pinkham's Vegetable Compound and I have had wonderful results from it. I felt better after taking the second bottle, and I am never without it in the house now. I have told lots of people about it and they say it helps them too."—Mrs. J. W. Critchett, 2 Hammond Street, Cambridge, Mass.

LEMON JUICE BEST TO WHITEN SKIN

The only harmless way to bleach the skin white is to mix the juice of two lemons with three ounces of Orchard White which any druggist will supply for a few cents. Shake well in a bottle, and you have a whole quarter pint of the most wonderful skin whitener, softener and beautifier.

Massage this sweetly fragrant lemon bleach into the face, neck, arms and hands. It can not irritate. Famous stage beauties use it to bring that clear, youthful skin and rosy-white complexion; also as a freckle, sunburn and tan bleach. You must mix this remarkable lotion yourself. It can not be bought ready to use because it acts best immediately after it is prepared.—Adv.

# DEATH TAKES TWO IN SAME COLUMBUS FAMILY

## Father Dies of Apoplexy While Sitting at Bedside of Fatally Ill Child

Columbus July 20—Death striking with the swiftness of a bolt from the clear sky twice visited the home of Mr and Mrs J Chauncey Rader, 210 W Second [illegible] here within the last two days and today arrangements were made for a double funeral service.

The father [illegible] years old and his baby, Robert Chauncey, 6, were the victims.

Apoplexy coming as the father sat beside the bed of his ill son, brought death first on Sunday. The child suffered a relapse from a child's ailment as the father was carried from the room and early today died. Today they lay side by side in the once happy little home while Mother Rader and sister Jean Anna aged four wept.

Tomorrow afternoon the mother and her daughter will accompany the two bodies to Bloomfield Ohio where they will lay to rest their husband father and son brother.

# Princess Alexandria is Best Known Clubwoman

AMERICA has its Jane Addams, its Carrie Chapman Catt, its Mrs Mary Sherman and many other well known club and social workers. In [illegible] of Europe however, Princess Alexandra Cantacuzene of Roumania is the best known clubwoman. She is said to be president of more women's organizations than any other woman.

Princess Cantacuzene is president of the Roumanian National Council of Women and was a delegate to the congress of the International Council of Women [illegible] was held in this country last year. During the war she directed the largest hospital in Bucharest, which had a capacity of 3000. She organized [illegible] for children and mothers, feeding [illegible] 000 persons a day in the city under the auspices of the Red Cross.

In the concentration camps she [illegible] assisted in feeding and caring for [illegible] 000 soldiers. She has been decorated with the Grand Cordon of the Holy Sepulchre, the Grand Cross of the Order of Queen Marie of Roumania, [illegible] officer of Saint Sava of [illegible] and [illegible] Italian and Roumanian Croix de Guerre.

The princess bears a noble name. The founder of the family migrated to Roumania in 16[illegible] and his descendants have been leaders. Under their influence the Roumanian language and literature reached their highest development in the 17th century.

Besides being president of the Roumanian Council for Women Princess Cantacuzene is one of the vice presidents of the International Council, president of the National Orthodox Society of Roumanian Women, vice president of the Women's Petite Entente and member of the Roumanian Social Institute. Her home is in the Roumanian capital, Bucharest.

**Make Levy**

Gilead Township trustees after the Kiwanis had laid the wants of the library before them arranged a [illegible] mill levy for library purposes at their meeting held Friday night

This levy will amount to approximately $[illegible]2 00 and will be assured if the budget is approved by the county budget commission

This move followed the recent opening of the library on a free basis to all residents of the township instead of the village of Mt Gilead [illegible] will be included in the privileges and with the beginning of school in the fall all township residents are expected to increase the loan business of the institution

The further step taken by the committee was to recommend the appointment of a standing library committee which will annually pledge the sum of $400 00 to be raised by the Kiwanis Club

It is expected that the Kiwanis president [illegible] B White will appoint a committee as recommended

Efforts expended in the past in an endeavor to maintain the library can be spent on new books and equipment officials say

**Loans 6,000 Books**

The library loaned over 6,000 books and over 1,100 magazines during the past year and showed ample increase in the number of citizens patronizing the institution

At present there are over 4,000 books [illegible] and 24 magazines

The clubs aiding in the upkeep of the library in the past include the Sorosis Twentieth Century and Progress

Trustees are Mrs [illegible] Buck Mr C H Wood and Mrs Nelson [illegible]

The library is in charge of Miss [illegible] Gardner and is open on Wednesday and Saturday afternoons

Plans for the membership drive were [illegible] Monday night at a dinner meeting of the club the first held since receipt of the state charter several days ago. Charles [illegible] Fine secretary of the State Automobile Association was the principal speaker

The member drive will extend into all sections of Hardin County with Carl Price president of the club directing the activities of the workers

With the club organization perfected here with a charter membership of 125 active work in rendering a service to motorists will start immediately. Offices for the present are to be maintained in the rooms of the Chamber of Commerce but will not in any way be connected with that body. The chamber rooms were selected as an economy move that present club finances might be devoted to their program of service

**Provide Bureau**

First activities of the club will include the establishment of an information bureau for tourists a service office for members and the erection of traffic signs in Kenton and Hardin County

Despite the intense heat last night more than [illegible]0 attended the dinner meeting. During the course of his address Mr Fine told of the state and national auto organizations and of their work in serving the motorists. Eighty five clubs with a membership of nearly 1[illegible],000 are at present existing in the state

Both the state and national bodies he said are keeping a close watch on all legislation affecting motorists. He spoke of the associations stand in favoring the return of the half mill road building levy in the state in preference to any increase in the gasoline tax

Others who spoke on the program last night were Attorney Charles [illegible] Price Carl Price and James H Allen former treasurer of the state club

## Two Errors in Last Half of Seventh Cost Parsels Game in Bucyrus League

### One Triple and Two Doubles Pounded Out During Game with Ohio Crane Outfit in Twilight Tourney, Parsel Moundsman Hurls Seven Men Out

Bucyrus July 20 Two errors by Few in the last half of the seventh inning cost the Fast Parcels the game with the Ohio Crane team in a Twilight League ball match here last night The score was 5 to 4

The score stood [illegible] when the first of the seventh closed. The Parsels were in the lead. When the Ohio Crane came to bat Kline led off and singled and was sacrificed to second by Krauth who was pinch hitting for Eschliman. Kline scored a minute later on Few's first error which also gave Linnstill a shot at first. Cotesmith doubled and scored Linnstill. Patton then singled sending Cotesmith to third. He stole second on the first ball pitched. Cotesmith scored on the same play and Patton went on to third. The score was tied 4 all

Parsel went into the box to relieve the much pitched-out Stover. Helm the first to face Parsel hit a slow roller to Few who muffed it making his second error in one inning. Helm was safe on first when Patton crossed the rubber with the winning run. There we[re] one out when the winning run was scored

**Pitchers Effective**

Both pitchers seemed to be effective, Stover striking out seven men and Traxler fanning nine. Stover walked three and Traxler issued one free [illegible] to first

Only one triple and two doubles were knocked during the game the triple by Stover in the sixth and one of the doubles by Cotesmith in the seventh and the other by Stover in the fourth. The triple by Stover was headed for a homer but it struck a nearby auto in [illegible] and was stopped

## GIRL USES BARE FISTS TO DRIVE ANIMAL AWAY

### Pasteur Treatment Recommended, Lunges at Johnsville Man

Mt Gilead July 20—Mt Gilead and Morrow County officials are today checking a report of [illegible] in the north [illegible] part of Morrow County following a report from [illegible] Berry chief of [illegible] State Board of Health Laboratories that a strange dog which nipped at children and adults fought with [illegible] killed chickens and was finally [illegible] South [illegible] here Saturday night was a victim of rabies

A complete survey failed to reveal that the dog had inflicted wounds on any persons during its rampage Saturday. However it engaged in fights with a number of dogs on Morrow County farms

[illegible] communication with Dr [illegible] of the Columbus Pasteur Institute the Pasteur treatment was recommended for Miss Gladys Snyder 21 of Johnsville who came in contact with the mad animal but was not wounded

It was a small dog of [illegible] white and very [illegible] showing a diseased condition

In all his investigation Sunday by Health Commissioner R [illegible] Pierce [illegible] of the mad dog

**Started Near Mansfield**

It was first heard of Saturday morning about [illegible] two miles south of Mansfield at the James Dixon home where it bit a valuable bull dog. It was driven away and started toward Lexington

It was not reported further until 1 p m when it came into the yard of the Montgomery farm just south of Lexington walked by women and children and helped himself freely to a [illegible] of milk setting in the yard

It was driven away and about [illegible] p m attacked [illegible] W Shaffer, of Johnsville at the east edge of that village. After being kicked four or five times it proceeded through Johnsville without attacking anyone

On the west edge of the village, at the home of [illegible] it was discovered in a kennel of three weeks old collie puppies engaged in biting one of the puppies. Gladys Snyder began to stone the dog with her bare fists and with the aid of the mother of the pups drove away the strange dog

Going westward on state route 55 the dog was next seen at the George Rinehart home where it was scared away

**Attacks Hound**

It also made an appearance at the Vern Zeigler home without causing any harm but at the home of Mrs. Maggie Zeigler it attacked a large hound.

Its last attack was made at the Ernest Smith home, where attention was attracted by the squawking of chickens

# FATE OF DEMPSEY-TUNNEY BOUT UNKNOWN

## Grand Ballyhoo Continues; Rickard Maintains Silence and New Rumor is Heard

### Report Mysterious "Committee of Five" To Be None Other Than Officers of Policemen's Benevolent Association of Chicago Tex Makes New Promises

CHICAGO, July 20—Tex Rickard and the proposed Dempsey-Tunney bout today were just where the world left them yesterday and [illegible] one [illegible] in the offing, the other in the throes of statements and counter statements, hastily making new promises to replace those broken yesterday.

At the appointed hour last night Rickard failed to weigh in with his formal announcement regarding the site of the fight and the identity of the mysterious "committee of five" with which he is conversing.

Among the [illegible] however, there were [illegible] accept with [illegible] holding the officials of the Policemen's Benevolent Association of Chicago with the identity of those five big men in town.

New Rumor Started

The policemen's representatives, the rumor ran, are dickering for the bout as a substitute for their annual track and field benefit scheduled for late in the summer.

After a day of conferences and long distance telephone calls, mostly from New York, Rickard intimated last night that his formal calls mostly from New York. Rickard intimated last night that his formal statement would be forthcoming today and that he was not in the least worried over the threatened interference of the Coliseum A. C. which purports to hold a Dempsey contract for a Wills bout here.

"Dempsey analyzed their contracts and agreement to me at the time he signed with me in Little Rock last May," Rickard said. "They were to pay him $150,000 on a certain date.

"A week after that date they made their first financial move, offering him $25,000 which he refused. Their failure to comply with the terms of their contract nullified it. They have nothing for me to worry about."

Holds Its Silence

The Illinois State Boxing Commission up to a late hour this morning has been successful in holding its silence. As far as it was concerned, Secretary Con O'Brien said, the fight was still a rumor. No formal application to stage it had been made to the commission, therefore the solons had nothing to say individually or collectively.

It is a matter of record, though, that a local promoter was refused a license last week to feature a heavyweight bout, the commission rejecting his application with the dictum that it was not in favor of heavyweight fights in the state during the first year of legalized boxing. A Dempsey-Tunney match might cause them to reflect and repent, however.

Tex is Anxious

Rickard's only positive statement yesterday was that he would not stage a Dempsey bout here or anywhere unless all claims had been settled and all obstacles, bonafide or inspired, had been cleared away, giving him free rein to put on the fight as a heavyweight title bout should be put on. Such a situation smacks of the impossible.

Rickard's failure to issue an announcement yesterday is construed as a move prompted indirectly by the scheduled meetings of the Illinois and New York Commission today.

HERE'S NEW LIGHT HEAVY CHAMP

Jack Delaney—a closeup and in the ring

HOW long will Jack Delaney rule the light heavyweight division? Just how great a fighter is he?

These questions can be pondered while the newly crowned light heavyweight champion basks in the limelight thrown upon him by his decisive victory over Paul Berlenbach, defending champion, the other night.

Delaney is a better man than Berlenbach, no doubt. The new champ showed himself once more to be a rugged, courageous fighter. He has gained much cleverness. Against Berlenbach he looked like a great fighter. But that fight does not place him.

The two men had met twice before. Delaney knocked out Berlenbach in 1924—before Paul defeated McTigue for the title. That night Berlenbach knew absolutely nothing about the art of boxing. He had simply the kick of an army mule in both mits.

Last December the two met again. Berlenbach weathered Delaney's punches and received the decision.

Delaney's fame has come mainly at the expense of Berlenbach and Tiger Flowers. Jimmy Slattery, now a busted bubble, outpointed Delaney last year. Tommy Loughran fought him a draw [illegible] also.

There is little else ahead of Delaney but a return bout with Berlenbach. And if he meets the Astoria man again the latter will be down to weight and raring to win his title back.

## HAGEN SHATTERS WORLD'S RECORD

### Famous Golfer Sets New Mark in Eastern Open Golf Meet

Delaware Water Gap, Pa., July 20—Having broken the world's record for medal play scoring for 36 holes with 1[illegible]2 for the first two rounds, Walter Hagen resumed play in the Eastern Open Golf championship today with the announced intention of going after a new world's record for 72 holes of open play on a 6,700 yard course.

The present record is held by Emmet French of Youngstown, who made a total of 271 in 1922 in the Ohio open on his own course. His rounds were 67, 68, 71 and 65.

Hagen's score at the half way mark was 13[illegible] with a 67 and a 6[illegible]. He needs a 70 and a 71 to break the record.

As a result of his sensational performance Hagen led Johnny Farrell and Wild Bill Mehlhorn by nine shots this morning.

### BABE FINED FOR SPEEDING AGAIN

New York, July 20—"Why you are Babe Ruth," exclaimed the magistrate yesterday. "What do you plead to the charge of speeding?"

"Guilty," said the home run king.

Then the Babe peeled two ten dollar bills and a five from a big roll and paid the fine the judge had assessed.

The fine represents that of a first offender though the Babe paid four times that much two years ago for the same offense.

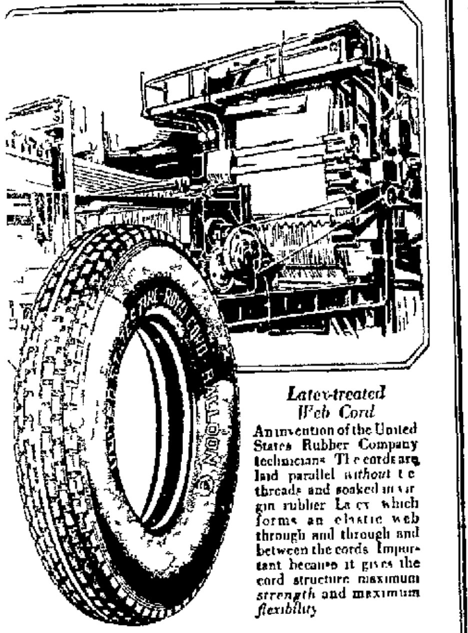
UNITED STATES TIRES ARE GOOD TIRES



Latex-treated Web Cord

An invention of the United States Rubber Company technicians. The cords are laid parallel without cross threads and soaked in virgin rubber Latex which forms an elastic web through and through and between the cords. Important because it gives the cord structure maximum strength and maximum flexibility.

Answering Some Further Questions about Latex-treated Web Cord

NOTE—So great an interest has been shown in this new construction because of the service given by United States Royal Cord Tires on passenger cars and busses that a further explanation of this patented process has been suggested.

Q—Is treating cords with Latex entirely new in tire building?
A—Yes. Until this process was developed by the United States Rubber Company the use of Latex before it had been coagulated into crude rubber had never been used in tire building.

Q—Is the process patented?
A—Yes. The process is patented and owned by this Company.

Q—What are its advantages?
A—The tire engineer's ideal is a tire thin and flexible as a soap bubble and strong as steel. The more you can add to a tire's strength without increasing its weight the better.
Latex treated Web Cord provides the strength and flexibility without adding unnecessary weight.

Q—Is it possible to make the cord structure of a tire too heavy?
A—Yes. Just as a cable made of many strands of fine and highly tempered wire can be stronger than a heavier iron bar, so the cord structure of a tire can be made strong, yet light and flexible, through this process.

Q—How does treating cords in Latex give additional strength?
A—Latex is virgin rubber just as it comes from the tree.
There are no chemicals in Latex to destroy the natural oils in the cotton or to weaken the cord fibre.
Each cord in a United States Tire is run through a tank of Latex by means of the machine shown in the illustration above.
The cords are then laid side by side and drawn up over heated rollers which evaporate the water in the Latex producing a rubberized fabric of cotton cords and pure rubber.
Each cord is impregnated and surrounded by rubber and attached to its neighboring cord with an elastic rubber web.

Q—Are there any other advantages?
A—Yes. In the old cord fabric the main strands in the cord structure were tied to each other with fine threads.
Latex treated Web Cord has none of these cross-tie threads and this source of internal friction is therefore eliminated.
By looking inside of a Royal Cord Tire and comparing it with tires made of the old cord fabric you will see that the Royal Cord has a much smoother and evener appearance.

# Erie Begins Removal of Dangerous Crossing Near Green Camp; Road Closed

## Highway To Be Straightened Out and Will Lead Directly Across Tracks; Delaware Pennsylvania Station Opened to Public; Bucyrus Man Pensioned

The Erie Railroad Co. today began the work of repairing the Erie crossing near Green Camp.

The crossing is situated on the road that is now closed for [illegible] work on a bridge. No detour will be necessary during the railroad work.

The Erie crossing at this point has been a source of danger for years [illegible]. The railroad crosses the highway at a curve in the road and motorists, instead of watching for an approaching train, keep their eyes on the road while making the curve.

The Erie Railroad Co. will construct the tracks so that the crossing will lead directly across the highway and avoid the curve, it was announced today.

It is expected that the work will not be completed before the latter part of the week.

The new freight and passenger station of the Pennsylvania Railroad at Delaware has been opened to the public.

Its opening follows the construction of a new track through the Delaware [illegible] and boosts the standing of the Pennsy there. The new track was completed and opened for freight and passenger traffic a month ago.

The old freight house and passenger station have been abandoned and all freight and passenger traffic is handled at the new station.

The moving of the tracks and station from the old location eliminates all danger of high water.

James B. Licher, sectionman at Bucyrus, has been placed on the Pennsy roll of honor having reached the age of 70.

"Jim," as Licher is known among local railroaders, started his railroading on the Western division at Fort Wayne in January, 1880, working as a track laborer at Robinson, O., until he was sent to Bucyrus in 1892. He worked under Supt. M. T. Seymour of the old Columbus, Sandusky and Hocking Railroad.

"Things have changed since 1880," says Jim. "No more link and pins or stub switches to contend with, and you don't hear the whistling of the engines as you used to in the old days when brakes were called for."

Mr. Licher has been a resident of Bucyrus for 30 years. He is the father of eight children, seven girls and one boy, all of whom are living with the exception of one daughter, who died in 1907.

All officials of the Hocking Valley Railroad Co., together with the board of directors of the company, passed through Marion today on a special train, enroute to Pomeroy from Toledo.

The officials are taking a tour of inspection over the railroad. They expect to arrive in Pomeroy tonight.

The Hocking Valley excursion from Columbus to Detroit through Marion Sunday was well-patronized. Among the many excursionists to take advantage of the No. 312 special train were 13 Marion persons, according to local officials. It was the second excursion to Detroit this year.

Many local employes of the Pennsylvania Railroad Co. are taking an interest in the Pennsylvania railroad hour being transmitted from broadcasting station WJZ, New York, each Tuesday evening.

Prizes are being offered by the Pennsylvania News, the official magazine of that railroad, for the best letter about the Pennsy radio hours. The letter must be not more than 250 words long and must be written by an employe of the Pennsylvania Railroad Co. or a member of his family.

In addition to being transmitted from WJZ New York, the program each Tuesday is being relayed through stations WRC, Washington, and WGY, Schenectady, N. Y.

Tonight the Pennsy hour will consist of instrumental music, both classical and popular. The program is a feature of the three stations listed from 8 to 9 o'clock each Tuesday evening.

T. P. Cameron, road accountant on this division of the Hocking Valley, and Harley Hooper, road foreman of engines, both of Columbus, were visitors in Marion yesterday.

**Come Out of the Kitchen!**

Grandmother might have been shocked by such a suggestion, for she was "kitchen-minded" from necessity.

For some years, Swift & Company, however, has been working to relieve the modern housewife of continuous kitchen work. Now, in addition to the many less expensive cuts adaptable to steam pressure and fireless cooker preparation, the housewife has the service of cooked meats.

"Ready-to-serve" meats are now available everywhere, for Swift & Company's nation-wide channels of distribution offer prompt and direct service to retailers.

These meats, in great variety and delightfully appetizing, have revolutionized the work of the housewife, especially during the hot summer months.

Such products as:

Swift's Premium Cooked Ham
Swift's Premium Minced Specialty
Swift's Premium Bologna
Swift's Baked Luncheon Loaf
Swift's Pimento Sandwich Meats
Swift's Sterling Delicacy

are available throughout the year. This is another feature of "Swift Service" — and a timely use of them will vary the monotony of ordinary meals.

There is a "ready-to-serve" meat for every taste—a score or more of meat delicacies for hot summer days.

# MISSOURI PRIMARY TO SETTLE WET DISPUTE

## State Will Express Itself In August; Opposing Forces Active

Kansas City, July 20—Earlier predictions that Missouri will be given an opportunity to express itself on the wet and dry issue in the August primaries have just begun to be a certainty.

The possibility that it might include more important issues than the dry law, or that it might be based on personalities, rather than principles has been definitely pigeonholed.

Senator George H. Williams, junior senator, candidate for re-election, earlier in the campaign carefully skirted the dry question, expressing himself as hoping that it would not be necessary to consider the matter at all in selecting the Republican candidate.

But the action of dry forces throughout the state demanding that he declare himself, and the repeated questioning of the anti-saloon league at last brought him to a denouncement of the league, on the grounds that it was attempting to class him with the wets.

Rodgers Priest of St. Louis, declared himself a "wringing wet," and David M. Proctor as a dry, are both seeking the Republican nomination. Rep. Harry B. Hawes is the sole wet candidate for the Democratic nomination and the two drys seeking the place, Justice Ewing Cockrell and Willis H. Meredith, have engaged in a bitter battle, each demanding that the other resign so that the dry forces might unite their support. But neither was willing to do the withdrawing.

# OLD AGE PENSIONERS INCREASE IN ENGLAND

London, July 20.—With the coming into law of the Widows', Orphans', and Old Age Contributory Pensions Act, 100,000 people additional to the present number of people receiving the old age pension in England have been added to the register.

Persons receiving the pension must be over seventy. They receive $2 weekly.

**Instant Relief from Bunions--Soft Corns**

No sensible person will continue to suffer from those intense, agonizing, throbbing bunion pains when the new powerful penetrating yet harmless antiseptic Emerald Oil can readily be obtained at any well stocked drug store.

Apply a few drops over the inflamed swollen joint and see how speedily the pain disappears. A few more applications and the swollen joint is reduced to normal.

So marvelously powerful is Emerald Oil that soft corns seem to shrivel right up and drop off.

Henney & Cooper guarantees it and is dispensing it to many foot sufferers.—Adv.

**FOR Sour Stomach PHILLIPS' Milk of Magnesia**

Hereafter [illegible] "Phillips' Milk of Magnesia" in water [illegible] relief will come [illegible].

**Better Than Soda**

For fifty years genuine "Phillips Milk of Magnesia" has been prescribed by physicians because it overcomes three times as much acid in the stomach as a saturated solution of bicarbonate of soda, leaving the stomach sweet and free from all gases. Besides, it neutralizes acid fermentations in the bowels and gently urges the souring waste from the system without purging. It is far more pleasant to take than soda.

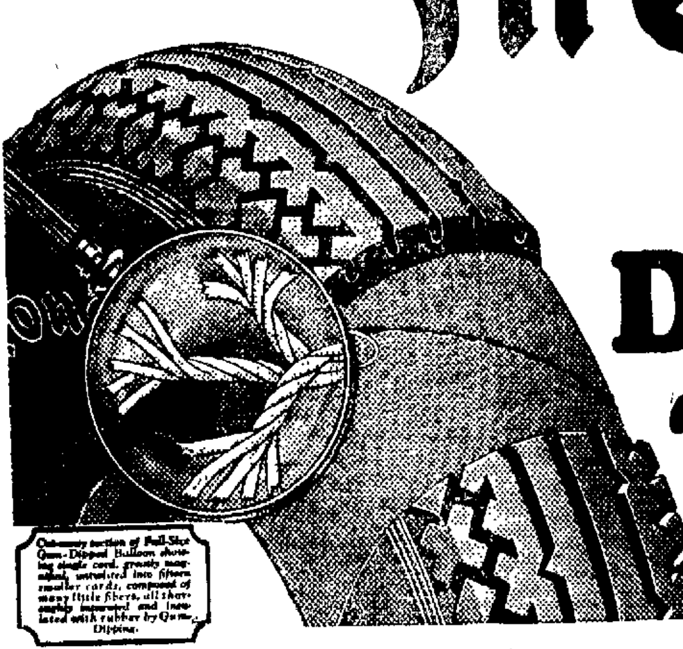
**Firestone GUM-DIPPED TIRES**



Cutaway section of Full-Size Gum-Dipped Balloon showing single cord, greatly magnified, untwisted into fifteen smaller cords, composed of many little fibers, all thoroughly impregnated and insulated with rubber by Gum-Dipping.

Car owners have never been able to buy tire mileage at so low a cost per mile as they can buy Firestone Gum-Dipped Tires today. And never before have they been able to buy tires so comfortable, safe and trouble-free.

This is possible because of the highly skilled research engineers who have developed special machinery and processes for manufacturing Gum-Dipped Tires, combined with economical, national distribution through efficient Service Dealers, many equipped with the latest Firestone methods of repairing High pressure, Full-Size Balloon, Bus and Truck Tires.

Firestone's long fight against the British Rubber Restriction Act has saved car owners millions of dollars.

We can serve you better with these wonderful tires and save you money. Come in today.

Interest Is Not Everything

There's more to an investment than the interest return. The safety of your principal is much more important.

Many a so-called investment offering an inflated interest rate, is undesirable because the capital is in danger.

S. W. Straus & Co first mortgage bonds combine unquestioned safety and an attractive interest rate, yielding 5 75% to 6 25% These bonds have always paid the principal and interest in full promptly on the day due

# BRITISH ARMY BLAMED FOR DURKIN'S TRAINING

Chicago July 20 — British army training methods are blamed to some extent for the alleged criminal tendencies of Martin Durkin, sheik bandit on trial here for the murder of Edwin Shanahan a former federal officer by former buddies of Durkin

Durkin ran away from home and joined a British company in Canada He was then 15 years old, and had been rejected for service in the American army because of his age. His weight—only 115 pounds — also was against him in the United States

Men who served alongside "Marty" or "Slim" as he was then known, do not attempt to minimize his acts, but they express the belief that the things he saw and was taught and the conditions under which he lived during the war, should be taken into consideration by the court and the jury

After a protesting public has whereased for a while, it moves on to "therefore."

# HARDIN COUNTY WOMAN STUNNED BY HAILSTONE

### Radiator of Bus Caved in and Windshield Shattered During Storm

Kenton, July 20—Mrs. Dennis Wetherill, 42, residing east of the city, was struck on the head by a large hailstone during the severe storm that swept that section, and stunned for several minutes. She was revived by other members of the household.

She was standing on an enclosed porch watching the progress of the storm when one of the hail stones crashed through the light screen, striking her on the head.

During the height of the driving storm a Marion-Kenton-Lima Red Star passenger bus driven by Floyd Burich of Marion, was stalled near the Marion County line. The windshield and vizor were shattered by the hail and the large hail-stones were driven with such force as to smash in the radiator of the bus.

As an aftermath of the damaging storm over the county, Kenton business houses handling plate glass are doing a rushing business. Hundreds of windows were shattered by the hail.

HERE'S MORE ABOUT

## MAD DOG

STARTS ON PAGE 11

There were 25 chickens killed at this place.

Fighting with a dog at the Smith home, the dangerous animal passed within a few inches of a baby standing in the doorway of the home. The child opened the screen and allowed the fighting dogs to enter. The child was unharmed.

### Shot To Death

The dog met its death by a shot, when it was driven exhausted, to a pig pen, and shot by Grant Smith.

Sheriff Leslie Fischer was notified, and word sent to Dr. Pierce. The dog was taken in charge by the sheriff, who packed its body in ice, for shipment to the laboratories of the State Board of Health, Monday morning.

Miss Snyder's hand was marked with a slight wound said to have been caused by some other agency, but treatment has been recommended to prevent infection.

## FIRE DESTROYS BARN ON FARM NEAR KENTON

Kenton, July 20—Fire, believed to have been caused by combustion in a mow of new hay destroyed the barn on the farm of Christopher McCumber, two miles east of here early Sunday.

Some machinery in the barn and all livestock were saved.

The loss is placed at $3,000.

# DOES BIG DAY'S WORK AND DOES NOT FEEL ALL WORN OUT

### Mrs. E. E. McCoy Credits Tepee Herb Tonic with Relieving Her of Backaches.

About one year ago Mrs. E. M. McCoy, of 533 McPherson Ave., Lima, O., met with an injury to her back. Ever since that time she had had such severe pains in her back that she was not able to do much work.

Numerous treatments and medicines failed to help Mrs. McCoy. Not long ago a friend told her about Tepee Herb Tonic. Mrs. McCoy tried it. Today she is in better physical condition than she has been since her injury.

"I can do more work than I could before I took Tepee Herb Tonic without feeling all worn out," says Mrs. McCoy in referring to her experience.

Her detailed statement follows:

"About a year ago my back was injured in an accident and it has been bothering me ever since. There were times when my neighbors would see me walking around all bent over. It was painful for me to straighten up.

"I think this injury to my back affected my stomach and bowels because my food would lie heavy in my stomach and then I had to resort to the use of laxatives.

"A friend told me about Tepee Herb Tonic and I said I would try it. I remembered that my mother always said there was nothing better than roots, barks and herbs when a person needed medicine.

"I am glad I started to take this Tepee Herb Tonic for it has relieved my back and I am comfortable now. My food digests perfectly and I do not have to use laxatives.

"Tepee Herb Tonic has meant a whole lot to me."

If you don't feel well try Tepee Herb Tonic. It has relieved others and it will also relieve you.

Tepee Tonic may be had in Marion at Bradley's, Henney & Cooper's, Wm. Stump's, Bartlett's and all drug stores; Richwood, H. D. Kyel's.—Adv.

# THREE KENTON YOUTHS HURT WHEN CAR SKIDS

### Trio Taken to Hospital Following Accident on Bellefontaine-Pk

Kenton, July 20—Three Kenton young men sustained injuries yesterday, when their machine skidded off the Bellefontaine Pike and turned over three times in the ditch.

The injured were Donna Cessna, 25, Lester Herbert, 21 and Clarence Herbert, 23. They suffered body bruises and cuts.

The driver of the car attempted to stop when another machine pulled in ahead of him, causing the machine to skid off the pavement. Passing motorists brought the accident victims to the hospital here.

IMPORTANT

The importance of electricity cannot bee emphasized too strongly. It represents one of the greatest forces in the country. Not many years will see the complete electrification of all the railway lines in the country.

"Electricity is important — it is NECESSARY for the present age."

IN THE LEAD

Fisher's engineering experts—skilled beyond their calling by virtue of years of continuous research and experimentation with all types of body construction—unhesitatingly aver that none but Body by Fisher—exclusively used by General Motors for Cadillac, Buick, Chevrolet, Oakland, Oldsmobile and Pontiac cars—affords the essential virtues of safety, beauty and comfort which characterize every Fisher product. Quite logically the public knows that when any improvement which really gives an enhanced measure of safety, comfort and luxury is perfected, Fisher will be the first to present it just as Fisher has created and been the first to present every important improvement in body design and construction of the past decade.
